Indicators to Measure Progress for the All Kids Covered Coalition

The Coalition will use data to track progress toward our goal of ensuring that every child in Colorado has continuous, quality, affordable, and equitable health coverage. Where data allow, these indicators will be tracked by race and ethnicity.

Measure	Indicator	By race/ethnicity
% of Colorado children with insurance coverage[1]	2017: 95.7%	2017: • *American Indian = 86.2% • Asian = 95.8% • *Native Hawaiian and Other Pacific Islander = 96.4% • Black or African American = 98% • Hispanic or Latino = 93.7% • Non-Hispanic White = 96.7% • Two or more races = 96.6%
% of Coloradan children who have coverage that does not include annual or lifetime limits[2]	2017: 99.3%	N/A
% of Colorado children in families that spend more than 10 percent of their income on medical expenses (not including dental expenses)[3]	2017: 10.9%	2017: • Non-Hispanic/Latinx White = 10.4% • Hispanic/Latinx = 10.5% • Any other race/ethnicity = 13.8%
% of Colorado children in families that spend more than 2.5 percent of their income on dental expenses[4]	2017: 12.2%	2017: • Non-Hispanic/Latinx White = 11.6% • Hispanic/Latinx = 13.5% • Any other race/ethnicity = 12.6%
% of kids who were insured but had to switch coverage types during the last 12 months[5]	2017: 17%	
% of children in Medicaid receiving integrated behavioral and primary care (TBD)	TBD	

*Interpret with caution due to small sample size
